PROFESSIONAL SUMMARY

React Native Developer with 2.7+ years of experience shipping 10+ production apps for iOS and Android, including white-label delivery platforms and an AI-powered super app used by thousands of end users. Production experience with React Native's New Architecture (Fabric, TurboModules), Redux Toolkit, Zustand, and React Query, alongside REST/GraphQL API integration, Firebase push notifications, unit testing with Jest, and CI/CD deployment via EAS Build and CodePush. Comfortable working in 7–9 person Agile/Scrum teams to deliver production-ready, high-performance mobile apps from concept to App Store/Play Store release.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML, CSS

Frameworks & Libraries: React Native, Expo, React Navigation, Reanimated, Bootstrap

State & Data Management: Redux, Redux Toolkit, Zustand, React Query

Architecture: New Architecture (Fabric, TurboModules), Native Modules, Platform-Specific Code (iOS/Android Bridging)

Testing & QA: Jest, Unit Testing, Detox / Maestro (E2E Testing)

APIs & Backend Integration: REST APIs, GraphQL APIs, Firebase, Push Notifications (FCM), Google Maps Integration

DevOps & Deployment: CI/CD Pipelines, EAS Build, CodePush / OTA Updates, App Store & Play Store Deployment

Monitoring & Real-Time: Sentry, Crashlytics, Flipper, WebSockets/Socket.io, AsyncStorage/MMKV

Tools & Practices: Git, GitHub, Agile/Scrum, Accessibility (a11y), Responsive Design, Performance Optimization

WORK EXPERIENCE

React Native Developer — Ninjas Code

Islamabad, Pakistan | Nov 2025 – Present

- Develop and maintain 10+ production React Native apps for iOS and Android within an 8–9 person cross-functional Agile team, including white-label delivery platforms and an AI-powered super app serving thousands of end users.
- Adopted React Native's New Architecture (Fabric renderer, TurboModules) in production to reduce bridge overhead and improve native performance.
- Integrate REST and GraphQL APIs, Firebase push notifications (FCM), WebSockets for real-time features, and Google Maps-based location services.
- Manage application state and server data with Redux Toolkit, Zustand, and React Query; persist local data with AsyncStorage/MMKV and build reusable component libraries.
- Monitor production issues with Sentry/Crashlytics and Flipper, write unit tests with Jest, and ship via EAS Build and CodePush OTA updates for faster iteration.

React Native Developer — Future Dev Solutions

Lahore, Pakistan | Feb 2024 – Nov 2025

- Built and maintained UI functionality across multiple React Native screens within a 7–8 person team, integrating REST APIs to expand core application features.
- Collaborated with designers and backend engineers in an Agile/Scrum workflow, debugging cross-platform issues and applying performance optimization techniques to improve app responsiveness.

React Native Developer — Intern — Systems Ltd

Lahore, Pakistan | Nov 2023 – Feb 2024

- Contributed to the design, implementation, and maintenance of features for a Food Recipes React Native application.
- Assisted with debugging, writing clean and testable JavaScript/TypeScript code, and integrating APIs under senior developer guidance.

PROJECTS

Flippsy — *React Native Developer*: Cross-platform app published on Google Play Store with 50+ installs; built core UI screens, integrated REST APIs, and managed state with Redux. ([Play Store](#))

POS — Hotel Management System — *React Native Developer*: Client-based point-of-sale application optimized for Android tablets, used by 1,000+ hotel staff/end users; implemented API integration and offline-friendly data handling.

Enatega — White-Label Delivery Platform — *React Native Developer*: Multi-vendor delivery platform (customer, rider, vendor apps) sold to multiple businesses; serves 2K+ active users. Multivendor variant: 4.4★, 1K+ downloads. ([Play Store](#))

Shepherd AI — *React Native Developer*: AI-driven educational platform for a UK-based client, published on the App Store with 7K+ users; built UI screens and integrated APIs for personalized learning and tutoring. ([shepherd.study](#))

Lumi — *React Native Developer*: AI-powered super app (500+ downloads) for booking rides, food, and hotels via a conversational voice agent that completes bookings end-to-end. ([Play Store](#))

Shaaneiol — Delivery Platform — *React Native Developer*: Customer, rider, and store apps for a multi-city food and goods delivery network, shipped on both Android and iOS with a 4+★ App Store rating. ([App Store](#))

CERTIFICATIONS & EDUCATION

Meta React Native Specialization — Coursera | In Progress (2026)

BS, Information Technology — GC University | 2019 – 2023
